To be a good leader...

Your **Perspective**

To be a good leader...

Your **Personal Inventory**

In a School....

- Where do you see yourself?
- Where do you see your dept?
- Where do you see your staff?
- Where do you see your school?

Growth Mindset
*1-3-5 Year Plan
*Your risk
threshold

In a School....

- Name your projects and plans
- Know the resources needed
- Know the support needed
- Know the pitfalls
- Know the response

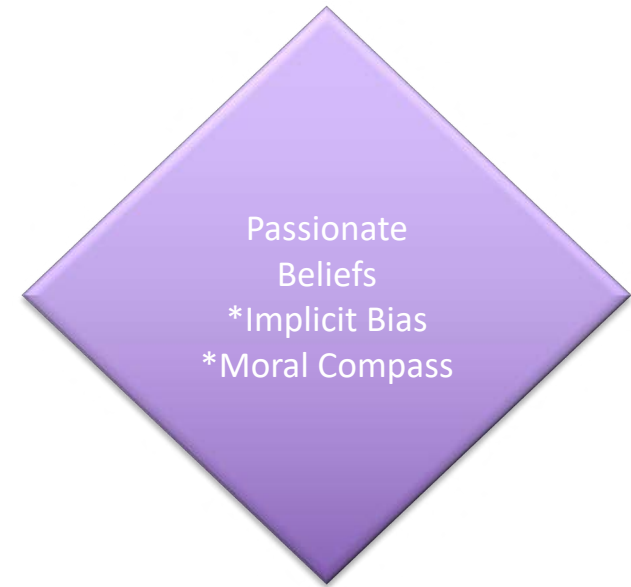

Dynamic Actions

- *What are you capable of?
- *What are you allowed to do

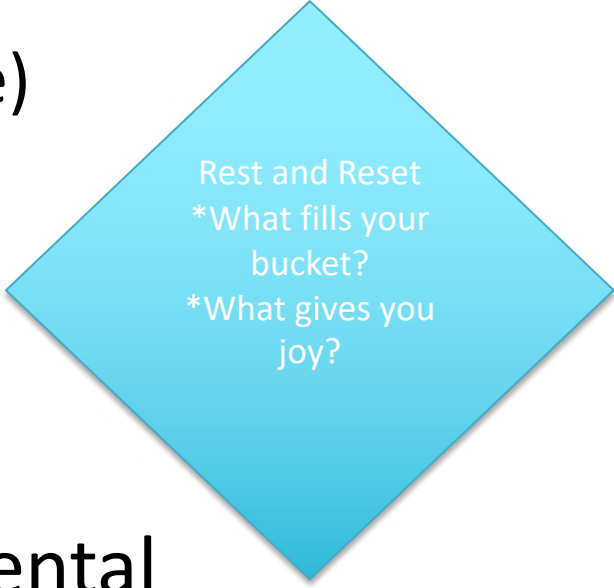

In a School....

- What is your history?
- What do you truly believe?
- Who do you have to convince?
- Do your desires fit
“the big picture?”

In a School....

- Who is your confidant – AT WORK
(there's a reason I don't say at home)
- Do you ever put “work” away?
- How is your Spirit/ Soul
- Are you thankful?
- Do you take care of your own mental health – how?

Rest and Reset
*What fills your bucket?
*What gives you joy?

To be a good leader...

Don't Change your Practice – It's probably actually
fine

Change your Perspective!
Practice will follow!
